TOTAL SOCIAL SERVICES BLOCK GRANT

\$68,257,174

If the Congress of the United States decreases the federal fund availability for the Social Services Block Grant as described above, the Department of Health and Human Services shall reduce the State administration amount(s) by at least the percentage of the reduction in federal funds. After determining the reduction in the State administration, the remaining reductions shall be allocated proportionately across the program and activity appropriations identified above. In allocating a decrease in the federal fund availability, the Department shall not eliminate the funding for a program or activity as allocated by the NC General Assembly unless it is related to the State administration.

B. Fiscal Operations

1. Criteria for Distribution

Describe the State's criteria for allocation of SSBG funds to State entities.

In allocating funds to State entities, DHHS considers funds available through SSBG, TANF transfer, and other funding sources. Funds are then allocated in such a way as to sustain community-based services aimed at protecting vulnerable adults and children and supporting the services for youth at risk.

2. Planning Process for Use and Distribution of Funds:

Describe the planning process for determining the State's use and distribution of SSBG funds.

North Carolina DHHS sets program and budget priorities by reviewing the program and budget plans for administration. DHHS personnel also consult with and gather input from stakeholders and community partners. This information is used to make decisions about how to allocate resources to meet the goals and objective specified by DHHS.

3. Financial Operations System:

Describe the State's process of assigning costs (e.g., cost allocation plan) and method of calculating costs (e.g., Random Moment in Time).

North Carolina uses a cost allocation plan to assign costs and calculates costs using the 100% Time Reporting method.

C. Program Operations

1. SSBG Statutory Goals the State Plans to Achieve

Indicate which of the statutory goals the State plans to achieve, and provide a description of how services funded by the SSBG will be directed at one or more of these goals.

SSBG Statutory Goals:

- 1. Achieving or maintaining economic self-support to prevent, reduce, or eliminate dependency
- 2. Achieving or maintaining self-sufficiency, including reduction or prevention of dependency

- Preventing or remedying neglect, abuse, or exploitation of children and adults unable to protect their own interests, or preserving, rehabilitating or reuniting families
- A. Preventing or reducing in appropriate institutional care by providing for community-based care, home-based care or other forms of less intensive care
- Securing referral or admission for institutional care when other forms of care are not appropriate, or providing services to individuals in institutions

How Services Funded by the SSBG will be directed at these goals:

SSBG funds will be used to support all these goals by providing services to children, youth, and adults that will help individuals achieve and maintain self-sufficiency, prevent or remedy neglect, abuse and exploitation, prevent or reduce inappropriate institutional care, and direct individuals to institutional care when appropriate.

2. Characteristics of Individuals to be Served

Describe the characteristics of individuals to be served, including: definitions of child, adult, and family; eligibility criteria; and income guidelines.

Definitions

Child: A person who is less than 18 years of age

Adult: An individual who has reached the age of majority, age 18 in North Carolina, or who has been emancipated by a court order.

Family: One or more parents and children related by blood, marriage, or adoption, and residing in the same household; or a parent substitute, such as a related caregiver or legal guardian, who has responsibility for the 24-hour care and supervision of a child.

Eligibility Criteria & Income Guidelines:

There are three *primary* eligibility categories defined by the State through which individuals may be eligible to receive Social Services Block Grantfunded services. The first eligibility category defined by the State is based on an individual's status in terms of two major income maintenance programs - the Temporary Assistance for Needy Families (TANF) and the Supplemental Security Income (SSI) programs. The second category is based on the income status and size of the income unit. In the third category, services may be provided "Without Regard to Income," based solely on an individual's need, although for some services the recipient may be asked (but not required) to share in the cost of providing the service. A fourth eligibility category results

from the transfer of a percentage of the State's allocation of TANF (Temporary Assistance for Needy Families) funding to the Social Services Block Grant. Adhering to federal eligibility requirements for persons receiving assistance through the TANF program, these funds will be used only for programs and services to children and their families whose incomes are at or below 200% of the Federal Poverty Level, applicable to family size. The four eligibility categories are described as follows:

Income Maintenance Status

Individuals considered eligible as income maintenance recipients are:

- Current recipients of Temporary Assistance to Needy Families, known as Work First Family Assistance (WFFA) in North Carolina;
- Persons whose needs are taken into account in determining the needs of WFFA recipients;
- Applicants for or current recipients of Supplemental Security Income (SSI) benefits;
- Persons who receive regular Optional State Supplementation payments from the State, known in North Carolina as State/County Special Assistance for Adults, to supplement SSI benefits;
- Children for whom adoption assistance payments or foster care maintenance payments are made under provisions of Public Law 96-272, and are thus considered WFFA recipients.

All these income maintenance recipients are categorically eligible for services. For services such as child care, in which various federal and state funding sources have been blended to maximize funding and streamline service delivery to families, policies specific to that program shall apply. An individual applying for child care services is no longer considered income eligible on the basis of income maintenance status. Although income received from an income maintenance payment such as WFFA or SSI may continue after these individuals are employed, it is not included in the amount of family's income used to determine eligibility for child care services. Income from employment and other sources available to the family is counted toward determining eligibility.

Income Status (Income Eligible Clients)

Eligibility for certain services requires consideration of the income unit's monthly gross income. These services include 1) Child Care Services, 2) In-Home Aide Services for the Blind, 3) Voluntary Sterilization (funded under SSBG as an optional resource item of Health Support Services) and 4) Transportation Services.

Unless otherwise excepted, the following are defined as separate income units for purposes of determining eligibility and cost sharing contributions: biological or adoptive parents and their minor children; a minor parent and his or her children; each adult, whether related or unrelated, other than spouses; children living with adults other than their biological or adoptive parents; and minors who are emancipated through a court proceeding,

The maximum income eligibility limit for subsidized Child Care Services is 75% of North Carolina's State median income, adjusted biennially. Families who qualify on the basis of income eligibility pay fees based on their income, family size, and the amount of time child care is needed each month.

For the other services listed above, the State has adopted application of the Federal Poverty Level for use in determining eligibility based on the number of individuals in an income unit. In-Home Services for the Blind is the only one of the services listed above that is available to individuals in income units earning up to 100% of the of the State's established income which is 150% of the Federal Poverty Level. Voluntary Sterilization is an option for individuals in income units earning up to 80% of the Federal Poverty Level. Only those who earn less than 60% of the Federal Poverty Level for their family or income unit are eligible for *all* services, including Transportation, offered through the Social Services Block Grant.

The provision of services "Without Regard to Income" is based solely on the individual's need for the service; however for some services, clients are requested to voluntarily contribute to the cost of services provided. Services supported by the Social Services Block Grant and made available on a "Without Regard to Income" basis may include, depending on each year's allocation:

- Adjustment Services for the Blind and Visually Impaired
- Adoption Services
- Adult Placement Services
- Community Living Services
- Day Care Services for Adults

 (Service is available without regard to income only when needed to
 support child protective services, child welfare services and for
 children receiving foster care services.)
- Children and Adults Needing Mental Health, Developmental Disability and/or Substance Abuse Services

marriage or participation in the armed services. For Family Planning Services, "family" will be defined in accordance with federal regulation, 10A NCAC 71R .0908 for Family Planning Services. For Nutrition Services, "family" will be defined in accordance with 10A NCAC 71R .0913.

TANF Funds Transferred to the Social Services Block Grant

Federal regulations allow certain TANF monies to be transferred into the Social Services Block Grant. However, welfare reform law stipulates that any TANF funds transferred to SSBG must be used for families with incomes no

higher than 200% of the Federal poverty guidelines. Following this requirement, Social Services Block Grant funds transferred from TANF will only be used for the provision of programs and services to children and their families or income units who earn less than or up to 200% of the Federal Poverty Level, applicable to the size of the family/income unit served.

TANF-to-SSBG funds will be used to support Adoption Services, Foster Care Services for Children, and Other Child Welfare Services where income for families or income units receiving the services does not exceed 200% of the Federal Poverty Level. Activities funded under these service categories include Non-residential Diagnostic and Treatment Services, Recruitment, Assessment and Training of Adoptive and Foster Parents; Adoption Assistance and Post-Adoption Case Management; Case Planning and Case Management, Preparation for and Participation in Judicial Determinations, and other services to youth in foster care or former foster care recipients. For State Fiscal Year 2013 funds transferred from TANF to SSBG will also be used to support training for child welfare services and to maintain the level of expenditures for Child Protective Services workers.

Consumer Contribution

Individuals determined eligible to receive services subject to the consumer contribution policy shall be informed of the requirement that all such recipients are given the opportunity to contribute to the cost of services provided, based on their gross family income and desire to voluntarily contribute. Income, size of income unit, cost of services, and other factors that affect ability to contribute may be taken into account. Services are not terminated if the individual decides not to contribute. The following is a list of services for which consumer contribution is applicable.

- Adult Day Care and Day Health Services
- Housing and Home Improvement Services (Renovations or Repair and Furnishings or Appliance Purchases only)
- In-Home Aide Services
- Personal and Family Counseling
- Preparation & Delivery of Meals

When any of the above services are provided to adults or children as part of a Protective Services Plan, these individuals will be excluded from consumer contributions, up to a maximum of 12 months. Consumer contributions do not apply to children in foster care, children who have been approved to receive adoption assistance, persons receiving Work First assistance, or federally administered Supplemental Security Income (SSI) applicants or recipients.

Fees

Individuals determined eligible to receive services subject to fees must be informed of the requirement that all such recipients are requested to share in the cost of services provided, based on their ability to pay. Income, size of income unit, cost of services, and other factors that affect ability to pay may be taken into account. The following is the service for which fees are applicable.

Child Care Services

Families who are eligible for child care services based on their countable income are charged a parent fee based on their income and family size. The fee is paid directly to the child care provider. Families who are eligible for child care services without regard to income when needed to support child protective services, child welfare services, or when children are receiving foster care services are not charged a parent fee.

Under North Carolina's social services program, any service available through the county department of social services where the individual lives, when provided in conjunction with Protective Services for Children or Adults, will be provided without cost sharing and without regard to income during the first twelve months after Protective Services for Children or Adults is initiated, or until the case is closed, if it remains open for less than a year.

Public Notice Public Invited to Offer Suggestions on Block Grants

RALEIGH—The public is invited to comment on the state's Social Services Block Grant plan. The N.C. Department of Health and Human Services (DHHS) creates this plan every year to outline how federal social services block grant funds will be administered.

From September 21 – October 5, 2012, the written plan is available on the web at:

www.ncdhhs.gov/dss/pubnotice/ssbg.htm and a hard copy is available from 8 a.m. to 5 p.m. at:

NC Division of Social Services Central Office Albemarle Building 325 North Salisbury Street Raleigh, NC

Federal block grant funds help pay for some of the programs and services states' provide. States are given broad latitude under block grant funding to design and operate their own programs. However, the federal government places certain restrictions on what types of expenditures can be made from each block grant fund.

Citizens interested in commenting on the plan must submit written comments no later than **October 5, 2012**. Comments may be emailed to ssbg.comments@dhhs.nc.gov, faxed to (919) 334-1052, or mailed to:

CERTIFICATION REGARDING DRUG-FREE WORKPLACE REQUIREMENTS

This certification is required by the regulations implementing the Drug-Free Workplace Act of 1988: 45 CFR Part 76, Subpart, F. Sections 76.630(c) and (d)(2) and 76.645(a)(1) and (b) provide that a Federal agency may designate a central receipt point for STATE-WIDE AND STATE AGENCY-WIDE certifications, and for notification of criminal drug convictions. For the Department of Health and Human Services, the central pint is: Division of Grants Management and Oversight, Office of Management and Acquisition, Department of Health and Human Services, Room 517-D, 200 Independence Avenue, SW Washington, DC 20201.

Certification Regarding Drug-Free Workplace Requirements (Instructions for Certification)

- 1. By signing and/or submitting this application or grant agreement, the grantee is providing the certification set out below.
- 2. The certification set out below is a material representation of fact upon which reliance is placed when the agency awards the grant. If it is later determined that the grantee knowingly rendered a false certification, or otherwise violates the requirements of the Drug-Free Workplace Act, the agency, in addition to any other remedies available to the Federal Government, may take action authorized under the Drug-Free Workplace Act.
- 3. For grantees other than individuals, Alternate I applies.
- 4. For grantees who are individuals, Alternate II applies.
- 5. Workplaces under grants, for grantees other than individuals, need not be identified on the certification. If known, they may be identified in the grant application. If the grantee does not identify the workplaces at the time of application, or upon award, if there is no application, the grantee must keep the identity of the workplace(s) on file in its office and make the information available for Federal inspection. Failure to identify all known workplaces constitutes a violation of the grantee's drug-free workplace requirements.
- 6. Workplace identifications must include the actual address of buildings (or parts of buildings) or other sites where work under the

grant takes place. Categorical descriptions may be used (e.g., all vehicles of a mass transit authority or State highway department while in operation, State employees in each local unemployment office, performers in concert halls or radio studios).

- 7. If the workplace identified to the agency changes during the performance of the grant, the grantee shall inform the agency of the change(s), if it previously identified the workplaces in question (see paragraph five).
- 8. Definitions of terms in the Nonprocurement Suspension and Debarment common rule and Drug-Free Workplace common rule apply to this certification. Grantees' attention is called, in particular, to the following definitions from these rules:

Controlled substance means a controlled substance in Schedules I through V of the Controlled Substances Act (21 U.S.C. 812) and as further defined by regulation (21 CFR 1308.11 through 1308.15);

Conviction means a finding of guilt (including a plea of nolo contendere) or imposition of sentence, or both, by any judicial body charged with the responsibility to determine violations of the Federal or State criminal drug statutes;

Criminal drug statute means a Federal or non-Federal criminal statute involving the manufacture, distribution, dispensing, use, or possession of any controlled substance;

Employee means the employee of a grantee directly engaged in the performance of work under a grant, including: (i) All direct charge employees; (ii) All indirect charge employees unless their impact or involvement is insignificant to the performance of the grant; and, (iii) Temporary personnel and consultants who are directly engaged in the performance of work under the grant and who are on the grantee's payroll. This definition does not include workers not on the payroll of the grantee (e.g., volunteers, even if used to meet a matching requirement; consultants or independent contractors not on the grantee's payroll; or employees of subrecipients or subcontractors in covered workplaces).

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

The Honorable Beverly E. Perdue, Governor The General Assembly of North Carolina

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of North Carolina as of and for the year ended June 30, 2011 (not presented herein), which collectively comprise the State's basic financial statements, and have issued our report thereon dated December 8, 2011. Our report includes a reference to other auditors.

As discussed in Note 23 to the financial statements, the State of North Carolina implemented Governmental Accounting Standards Board Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions, and Statement No. 59, Financial Instruments Omnibus, during the year ended June 30, 2011.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Other auditors audited the financial statements of the North Carolina State Lottery Fund, the North Carolina Turnpike Authority, the North Carolina Housing Finance Agency, the State Education Assistance Authority, the University of North Carolina System - University of North Carolina Health Care System - Rex Healthcare, the Supplemental Retirement Income Plan of North Carolina, and the cash basis claims and benefits of the North Carolina State Health Plan, as described in our report on the State of North Carolina's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors. The financial statements of the University of North Carolina System - University of North Carolina Health Care System - Rex Healthcare and the Supplemental Retirement Income Plan of North Carolina were not audited in accordance with Government Auditing Standards. As of the date of our report on the financial statements of the State of North Carolina, the financial statements of the State Education Assistance Authority were not audited in accordance with Government Auditing Standards; however, subsequent to that date, an audit in accordance with Government Auditing Standards was completed.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the State of North Carolina's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the State's internal control over financial

reporting. Accordingly, we do not express an opinion on the effectiveness of the State's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above. However, we identified certain deficiencies in internal control over financial reporting, described in findings 11-FS-1 and 11-FS-2 in Section II, Financial Statement Findings, of the accompanying Schedule of Findings and Questioned Costs, that we consider to be significant deficiencies in internal control over financial reporting. A significant deficiency is a control deficiency, or combination of deficiencies in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the State of North Carolina's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

The State of North Carolina's responses to the findings identified in our audit are described in Section II, Financial Statement Findings, of the accompanying Schedule of Findings and Questioned Costs. We did not audit the State's responses and, accordingly, we express no opinion on them.

This report is intended solely for the information and use of the Governor, the General Assembly, the State Controller, management and staff of organizations within the State of North Carolina reporting entity, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

REPORT ON COMPLIANCE WITH REQUIREMENTS THAT COULD HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

The Honorable Beverly E. Perdue, Governor The General Assembly of North Carolina

Compliance

We have audited the State of North Carolina's compliance with the types of compliance requirements described in the OMB Circular A-133 Compliance Supplement that could have a direct and material effect on each of the State of North Carolina's major federal programs for the year ended June 30, 2011. The State of North Carolina's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the State of North Carolina's management. Our responsibility is to express an opinion on the State of North Carolina's compliance based on our audit.

The State of North Carolina arranges with local government social services agencies to perform the "intake function" to determine eligibility for the following major programs: Medicaid Cluster, Temporary Assistance for Needy Families Cluster, Special Supplemental Nutrition Program for Women, Infants and Children, Low-Income Home Energy Assistance, Adoption Assistance, and the Children's Health Insurance Program. We designated these programs to be audited as major programs at certain local governments by their local government auditors. The results of these audits were furnished to us, and our opinion, insofar as it relates to the intake function for these programs, is based on the other auditors' results.

The State of North Carolina's financial reporting entity includes the operations of the State Education Assistance Authority and the North Carolina Housing Finance Agency. These agencies reported \$3.21 billion and \$233 million, respectively, in federal awards which are not included in the Schedule of Expenditures of Federal Awards during the year ended June 30, 2011. Our audit, described below, did not include the operations of the State Education Assistance Authority and the North Carolina Housing Finance Agency because these agencies engaged other auditors to perform an audit in accordance with OMB Circular A-133.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a

Finding Number	Type of Compliance Requirement	CFDA	Major Federal Program
11-SA-106	Subrecipient Monitoring	93.658	Foster Care-Title IV-E
11-SA-107	Subrecipient Monitoring	93.659	Adoption Assistance
11-SA-109	Subrecipient Monitoring	93.710	ARRA - Community Services Block Grant
11-SA-110	Special Tests and Provisions	93.710	ARRA - Community Services Block Grant
11-SA-111	Special Tests and Provisions	93.712	ARRA - Immunization

11-SA-131	Subrecipient Monitoring	93.959	Block Grants for Prevention and Treatment of Substance Abuse
11-SA-132	Subrecipient Monitoring	93.959	Block Grants for Prevention and Treatment of Substance Abuse

Compliance with such requirements is necessary, in our opinion, for the State of North Carolina to comply with the requirements applicable to those programs.

In our opinion, based on our audit and the work of other auditors described above, except for the noncompliance described in the preceding paragraphs, the State of North Carolina complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2011. The results of our auditing procedures also disclosed other instances of noncompliance with those requirements, which are required to be reported in accordance with OMB Circular A-133 and which are described in the accompanying schedule of findings and questioned costs as items 11-SA-25, 11-SA-26, 11-SA-30, 11-SA-35, 11-SA-38, 11-SA-59, 11-SA-93, 11-SA-99, 11-SA-114, 11-SA-117, 11-SA-121, 11-SA-124, 11-SA-125, 11-SA-128, 11-SA-129, and 11-SA-134.

Internal Control Over Compliance

Management of the State of North Carolina is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the State of North Carolina's internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the State of North Carolina's internal control over compliance.

Our consideration of internal control over compliance was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in the internal control over compliance that might be significant deficiencies or material weaknesses and therefore, there can be no assurance that all deficiencies, significant deficiencies, or material weaknesses have been identified. However, as discussed below, we identified certain deficiencies in internal control over compliance that we consider to be material weaknesses and other deficiencies that we consider to be significant deficiencies.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. We consider the deficiencies in internal control over compliance described in Section III, Federal Award Findings and Questioned Costs, of the accompanying Schedule of Findings and Questioned Costs as items 11-SA-7, 11-SA-8, 11-SA-11, 11-SA-12, 11-SA-15, 11-SA-18, 11-SA-22, 11-SA-29, 11-SA-32, 11-SA-34, 11-SA-37, 11-SA-40, 11-SA-46, 11-SA-46, 11-SA-49, 11-SA-61, 11-SA-62, 11-SA-67, 11-SA-70, 11-SA-74, 11-SA-76, 11-SA-77, 11-SA-84, 11-SA-91, 11-SA-96, 11-SA-97, 11-SA-98, 11-SA-101, 11-SA-103, 11-SA-105, 11-SA-106, 11-SA-107, 11-SA-109, 11-SA-110, 11-SA-111, 11-SA-112, 11-SA-120, 11-SA-122, 11-SA-123, 11-SA-131, and 11-SA-132, to be material weaknesses.

A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We consider the deficiencies in internal control over compliance described in Section III, Federal Award Findings and Questioned Costs, of the accompanying Schedule of Findings and Questioned Costs as items 11-SA-1, 11-SA-2, 11-SA-3, 11-SA-4, 11-SA-5, 11-SA-6, 11-SA-9, 11-SA-10, 11-SA-13, 11-SA-14, 11-SA-16, 11-SA-17, 11-SA-19, 11-SA-20, 11-SA-21, 11-SA-23, 11-SA-24, 11-SA-26, 11-SA-27, 11-SA-28, 11-SA-30, 11-SA-31, 11-SA-33, 11-SA-35, 11-SA-36, 11-SA-36, 11-SA-39, 11-SA-41, 11-SA-42, 11-SA-43, 11-SA-44, 11-SA-47, 11-SA-48, 11-SA-50, 11-SA-51, 11-SA-52, 11-SA-53, 11-SA-54, 11-SA-55, 11-SA-66, 11-SA-68, 11-SA-69, 11-SA-59, 11-SA-60, 11-SA-63, 11-SA-64, 11-SA-65, 11-SA-66, 11-SA-68, 11-SA-69, 11-SA-71, 11-SA-72, 11-SA-73, 11-SA-64, 11-SA-65, 11-SA-68, 11-SA-69, 11-SA-71, 11-SA-72, 11-SA-73, 11-SA-64, 11-SA-78, 11-SA-68, 11-SA-80, 11-SA-81, 11-SA-81, 11-SA-94, 11-SA-95, 11-SA-95, 11-SA-100, 11-SA-102, 11-SA-104, 11-SA-108, 11-SA-113, 11-SA-115, 11-SA-116, 11-SA-118, 11-SA-119, 11-SA-124, 11-SA-125, 11-SA-126, 11-SA-127, 11-SA-129, 11-SA-130, 11-SA-133, 11-SA-134, 11-SA-135, and 11-SA-136, to be significant deficiencies.

We noted certain deficiencies in information systems controls that were only generally described in this report. Details about these deficiencies, due to their sensitive nature, were communicated to management in separate letters pursuant to the provisions of *North Carolina General Statute* 147-64.6(c)(18).

Schedule of Expenditures of Federal Awards

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of North Carolina, as of and for the year ended June 30, 2011, which collectively comprise the State's basic financial statements (not presented herein) and have issued our report thereon dated December 8, 2011. Our report includes a reference to other auditors.

As discussed in Note 23 to the financial statements, the State of North Carolina implemented Governmental Accounting Standards Board Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions, and Statement No. 59, Financial Instruments Omnibus, during the year ended June 30, 2011.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in

Government Auditing Standards, issued by the Comptroller General of the United States. Other auditors audited the financial statements of the North Carolina State Lottery Fund, the North Carolina Turnpike Authority, the North Carolina Housing Finance Agency, the State Education Assistance Authority, the University of North Carolina System — University of North Carolina Health Care System — Rex Healthcare, the Supplemental Retirement Income Plan of North Carolina, and the cash basis claims and benefits of North Carolina State Health Plan, as described in our report on the State of North Carolina's financial statements. The financial statements of the University of North Carolina System — University of North Carolina Health Care System — Rex Healthcare and the Supplemental Retirement Income Plan of North Carolina were not audited in accordance with Government Auditing Standards. As of the date of our report on the financial statements of the State of North Carolina, the financial statements of the State Education Assistance Authority were not audited in accordance with Government Auditing Standards; however, subsequent to that date, an audit in accordance with Government Auditing Standards was completed.

Our audit was performed for the purpose of forming our opinions on the financial statements that collectively comprise the State of North Carolina's basic financial statements. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied by us and the other auditors in the audit of the basic financial statements and, in our opinion, based on our audit and the report of other auditors, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

The State of North Carolina's responses to the findings identified in our audit are described in the accompanying Schedule of Findings and Questioned Costs. We did not audit the State's responses and, accordingly, we express no opinion on them.

This report is intended solely for the information and use of the Governor, the General Assembly, the State Controller, management and staff of organizations within the State of North Carolina reporting entity, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.
